Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, such period shall, by default, expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Office Action Summary

Art Unit: 3764

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3 and 5-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Johnson in view of Moore.

Johnson discloses in figures 1-5 an orthopedic splint comprising a covering section 12, tie strips (14, 15 and 16), a padding 13, a stabilizing stick 11 hook and loop fasteners 21. The lower end of the padding is bifurcated (in figure 3, the lower portions of 13 are separated by a vertical section). However, Johnson does not disclose more than one stabilizing stick. Moore teaches in figure 4 an orthopedic splint comprising stabilizing sticks 36. It would have been obvious to one having ordinary skill in the art at the time that the invention was made that the orthopedic splint as disclosed by Johnson could be constructed with stabilizing sticks as taught by Moore versus one stabilizing stick as disclosed by Johnson in order to stabilize the splint on both sides of the calf. It

should be noted that the examiner is interpreting the lower portion of padding 13 as protruding out of the splint (note: figs. 1-2).

Response to Arguments

3. Applicant's arguments with respect to claims 1-3 and 5-6 have been considered but are moot in view of the new ground(s) of rejection.
4. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

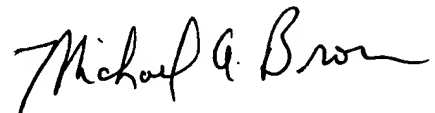

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3764

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
